Statt Defizitorientierung -> Neurodiversität

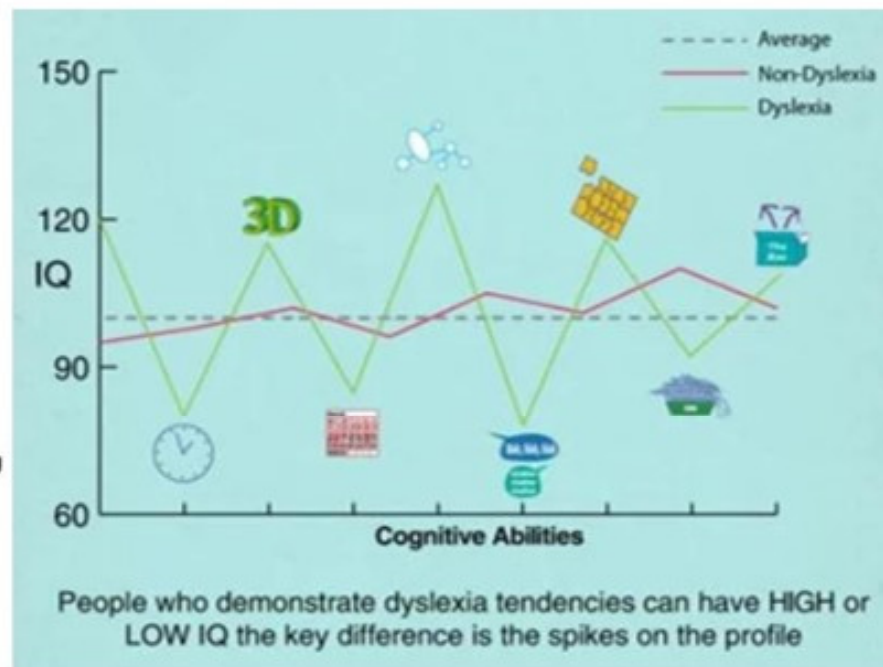

- Stärke in der Visualisierung komplexer Formen
- Assoziierungsfähigkeit: *I can't get interested in the details. Once I have a picture of what I think should be going on, then the details become interesting . . . It's not the other way around.*
- Mentaler Umgang mit 3D-Formen: *I can manipulate them at will*

Mean Spatial Scores by Occupation
(adapted from Wai, Lubinski, & Benbow, 2009)

Dyslexie (15%)

- **Sprechen:** fehlerhafte Betonung, wenig flüssig, häufige Pausen, unpräzise
- **Lesen:** abgehackt, mühsam, verlangsamt, kann sprachliche Einheiten schwer erfassen
- **Rechtschreibung:** vertauschen: d/b, q/p, M/W, n/u, N/Z, Lautsprache, Wortverstümmelung

Augmentative alternat. Communication Approach

- Enhances learning skills
- Provides most appropriate pictograms
- Decreases effort and time taken to interact
- <https://www.grammarly.com/>
- <https://languagetool.org/de>
- *Microsoft SwiftKey lernt Ihren Schreibstil und schlägt das passende nächste Wort vor.*
- We never want to encourage kids to just respond to the technology — that doesn't do them any good. We want to enable them to interact with people in a more substantial way.

One would think that more variety is better, but its not that simple.

Change the wording
its → it's

Unlock your hidden genius by compensating for your weak points and learning to play to your strengths

OSTSCHWEIZER
